Product Trade Name: InVite Fruit Fly Trap Common Name: insect attractant liquid/trap
Use: Attracts certain insect pests for control purposes EPA Reg. No.: not applicable
Composition: The product is composed of food and feed-grade materials.

SECTION I - HAZARDOUS INGREDIENTS

The product is weakly acidic and is composed of food and feed-grade materials. The product is not packaged in a sterile environment.

SECTION II - PHYSICAL PROPERTIES

Form: liquid	Solubility: water miscible	Viscosity: similar to water
Color: brown	% Volatiles by Volume (25 °C): ca. 6%	pH: weakly acidic
Odor: somewhat sharp, vinegary	Vapor Pressure: not known	
Specific Gravity: 1.05 at 25 °C	Vapor Density: not known	
Evaporation Rate: similar to water	Water Reactivity: N/A	

SECTION III - FIRE AND EXPLOSION HAZARD DATA

Flash Point (Test Method): N/A Flammable Limit: N/A Auto Ignition Temp.: N/A
Extinguishing Media: dry chemical, carbon dioxide or foam as appropriate for surrounding materials
Special Fire Fighting Procedures and Personnel Protection: Use appropriate fire-fighting procedures for surrounding materials. Keep fire-exposed containers cool with water spray. Wear positive pressure self-contained breathing apparatus approved by MSHA/NIOSH.
Unusual Fire and Explosion Hazards: The fire and explosion hazards are considered very minor.

SECTION IV - HEALTH HAZARD DATA

The product is considered practically non-toxic via the oral, dermal or inhalation routes and not considered dermally irritating or sensitizing. The product may cause eye irritation. Avoid contact with eyes. Excessive breathing of concentrated vapors from product may cause irritation of nose and throat.
Primary Route(s) of Entry: inhalation, ingestion
Signs and Symptoms of Over-Exposure: potential membrane irritation if breathed in high concentrations for extended periods
Acute and/or Chronic Effects: Ingredients are non-toxic if ingested, though product could support mold or bacterial growth.
Emergency and First Aid Procedures:
If in Eyes: Flush with water for at least 15 minutes and contact a physician if any persistent irritation results.
If Swallowed: Non-toxic in normal quantities. If ingested in large quantities contact a physician. The product could support mold or bacterial growth.
If on Skin: Wash with soap and water.
If Breathed: No effect in normal quantities. If high concentrations are breathed for extended times, remove to fresh air and monitor for symptoms.

SECTION V - PERSONAL PROTECTION MEASURES

Respirator Type: not required Eye Protection: not required Gloves: not required
Ventilation: not required
Other Protective Measures: Not required

SECTION VI - REACTIVITY DATA

Stability Under Normal Conditions: Stable
Hazardous Polymerization: Will not occur Conditions to Avoid: None
Incompatibility (Materials to Avoid): None Hazardous Decomposition Products: None

SECTION VII - SPILL OR LEAK PROCEDURES

Steps to be Taken in the Event Material is Spilled or Released:
Small Spill: Wipe up and dispose of in proper container.
Large Spill: Use absorbent and shovel spilled product into proper disposal container. Clean the area with detergent and water.
Waste Disposal Procedures: Wastes resulting from use may be disposed of on site or at an approved waste disposal facility. Dispose of wastes in accordance with all Federal, State and Local laws.

SECTION VIII - STORAGE AND HANDLING PRECAUTIONS

Storage Temperature: Room temperature. Average Shelf Life: Two years in original container at room temperature, longer if refrigerated.
Special Sensitivity (Heat, Light, Moisture): Avoid prolonged exposure to excessive heat.
Special Precautions to be Taken in Handling and Storage: Store in original container away from excessive heat and out of reach of children, pets or wildlife.

SECTION IX - SHIPPING INFORMATION

DOT Shipping Name: None required DOT Hazard Classification: Non-Hazardous
DOT Labels Required: None required Freight Classification: LTL Class 60

Warranty: The information provided in this Material Safety Data Sheet has been obtained from sources believed to be reliable.
